

NEW YORK COLLEGE
EUROPEAN & AMERICAN EDUCATION

BSc Hons in Internet Engineering and Web Management - New York College

AIMS

This programme delivers a detailed knowledge of systems design and analysis, networking, website management and business-to-business communications concepts. This programme of study will help students gain a broad understanding of the software and hardware technologies used to build internet-based computing systems. Students will also have the opportunity to develop a critical insight of management issues relating to the computing and telecommunications industry. The programme emphasises inter-personal teamwork skills as strongly as technical topics. Additionally, there are core courses in management and professional practice.

Duration

The BSc (Hons) in Internet Engineering and Web Management, is a 3-year full-time course, taught exclusively in the English language. Courses are offered within a two term period, with two exam periods in May and August. All courses are delivered during the weekday evenings to accommodate the needs of working students, it starts in October.
