

NEW YORK COLLEGE
EUROPEAN & AMERICAN EDUCATION

MA in International Management – Accounting & Finance - New York College

AIMS

The Master of Arts programme in International Management gives you the tools you will need for a variety of management roles in international companies. The programme focuses on the international service industry and gives you opportunities to put what you've learned to work.

In particular, the Master International Management · Finance & Accounting prepares you for working in and with global finance markets. Over four semesters, you will gain skills in planning, deploying and monitoring financial resources in international organisations. Business activities on international markets have much to do with investment, financing and financial risk. This major develops the competencies you will need to make international financing decisions. You will also learn how to record them in financial statements in accordance with international financial reporting standards. There is a strong focus on financial options on international capital markets as well as on international reporting standards. The programme also builds a foundation in investment analysis and portfolio management. This will allow you to manage investment portfolios and to optimise the financial performance of organisations.

Duration

Full-time 4 semesters (3 semesters study + 1 semester Master Thesis).
